# Catholic Education Week Coding Challenge

## April 19-May 5

*Transferable skills, creativity and critical thinking all come into play when students learn to code. Throughout this three week challenge, take on one or more of the challenges on the hub and explore the revised math expectations in the Algebra strand.*

**#CEW2021 #NURTURINGHOPE**

## Win!    3 Schools Will Win $1000 Worth of Technology!

**How do I enter?** Each time a class completes a new challenge, they can add a slide to the slideshow. The slideshow and challenges are found on the Education Week Coding Challenge Slideshow page on the Staff Learning Hub. Include a photo or video of your class participating in the challenge, your school name, educator name and grade. Your slides become ballots for your school. Each class may enter once per day.

**Who can participate?    K-8 classes in all schools**

**When does the contest run?**

**Monday, April 19th to the end of Education Week - Friday, May 7th.**

**Where do I find more info?** Visit the Staff Learning Hub - Education Week Coding Challenge page. There, you will find the coding challenges and the link to the slideshow to enter your school. Or, navigate there from the *Staff Learning Hub Coding Page* or *New on the Hub*. Contact Renée VanDamme Marcus with any questions.
