## Catholic School Community Council Year End Summary Reports

Prepared by: **Scott Johnson, Superintendent of Education**

Date: June 22, 2021

### Background

In accordance with *Sec. D Policy – Catholic School Community Councils* each school council will submit an annual report to the St. Clair Catholic District School Board:

#### *Roles and Responsibilities of the Catholic School Community Council Members*

- ***Submit an annual written and financial report of the Catholic School Community Council activities at the end of each school year to the school principal, parents and to the St. Clair Catholic District School Board.***

Please see the attached reports (Appendix A). A special thank you goes out to each school council chair and school principal for their submissions.

The attached reports have been received in compliance with the policy.

### Recommendations

**That the St. Clair Catholic District School Board receive the report: *Catholic School Community Council Year End Summary Reports, for information.***

<p>List two or three goals undertaken by your school council in 2020-2021, to increase parental involvement and engagement.</p>	<p>Briefly describe the status of each goal.</p>
<p>our council has been a quiet group this year, focussing on the well-being of our own families , staying safe and following the covid protocols we have been focussing on working from home and from school and doing face to face and online learning</p>	<p>we really hope next year looks more “normal” so we can get back to doing all the things we usually do like fundraising and family events</p>

<p>What goals would you recommend to next year’s school council, to increase parental involvement and engagement?</p>
<p>use CTK facebook page to promote council activities use to send invitations to fun events- not day to day items</p>

<p>What topics would you like the board to provide PD or information on at our meetings of our Board Advisory Committee, in order to enable your School Advisory Council to be more effective in increasing parental involvement and engagement?</p>
<p>mental health to continue - based on the past two years nutrition tied to mental health coping strategies rather than food as a stress reliever-motivation for families guest speakers- resources from the talk if unable to attend at the time</p>

List two or three goals undertaken by your school council in 2020-2021, to increase parental involvement and engagement.	Briefly describe the status of each goal.
<p>This year being my first year and a year of covid – things have been a bit different.</p> <ol style="list-style-type: none"> <li>1) First goal was to inform parents about our School Mental Health Programs.</li> <li>2) It was also important for parents to support students in the school as they were not physically present. Our parent facebook was also utilized to highlight curriculum and events around the school.</li> </ol>	<p>I had both Chris Preece and Lenora Cavacas join a google meet on different meeting dates and share information about our programs and services. I know both Chris and Lenora were sought out by parents after so I feel the discussions and information sessions were worthwhile.</p> <p>GPV had a very big presence in the school with luncheons and various activities in the past. Parents wanted to let the kids know they were thinking about them therefore gratitude journals were bought for each student.</p>

What goals would you recommend to next year’s school council, to increase parental involvement and engagement?
<p>Hopefully COVID will be behind us – and we will be able to invite families back in to the school. I feel an open house and personal interaction will be key to a positive school year. More parents may be hesitant and therefore the more we can invite respecting safety precautions the more they may be less hesitant to come and get involved.</p>

School: Good Shepherd Catholic School      School Council Chair: Carla Annett

List two or three goals undertaken by your school council in 2020-2021, to increase parental involvement and engagement.	Briefly describe the status of each goal.
1. Continue to explore ways to increase parents' attending SAC meetings	-Ensured meeting were posted on Edsby with encouragement to join us -Has been a goal for a few years, so may be time to keep the changes we have made and explore other ways to draw parents to attend SAC meetings, reach out to new K parents end of August/start of Sept.
2. Explore topics that may interest parents through surveys to gather information as to what type of events would draw them to the school and then run a few activities based on results of survey	-uniqueness of the year delayed this goal

What goals would you recommend to next year's school council, to increase parental involvement and engagement?
1. Continue to add events to the back of calendars that went home at the start of each month. 2. Focus on second goal from 2020-2021 as we didn't get a chance to make a focus this year. 3. Utilize social media platforms to connect and engage parents

What topics would you like the board to provide PD or information on at our meetings of our Board Advisory Committee, in order to enable your School Advisory Council to be more effective in increasing parental involvement and engagement?

<p>List two or three goals undertaken by your school council in 2020-2021, to increase parental involvement and engagement.</p>	<p>Briefly describe the status of each goal.</p>
<p>Based on how we ended the year and in anticipating an unknown year, we did not actively set goals to increase parental engagement as we knew from not having a welcome back to school barbecue, this would not be allowed.</p> <p>We agreed to monitor and adapt as necessary but knew that this was not the time for that focus for our families as many are struggling to get through the challenges.</p>	<p>We will begin setting goals this upcoming year based on the state of affairs.</p>

<p>What goals would you recommend to next year's school council, to increase parental involvement and engagement?</p>
<ol style="list-style-type: none"> <li>1. We need support from parents to engage with other parents and to support events that bring the school population together. How can parents draw in other parents?</li> <li>2. Look to parents of all grades with ongoing communication and invitations.</li> <li>3. We need parents engaged in a variety of ways (academic, with nutrition program, etc.)</li> </ol>

<p>What topics would you like the board to provide PD or information on at our meetings of our Board Advisory Committee, in order to enable your School Advisory Council to be more effective in increasing parental involvement and engagement?</p>
<p>Our school advisory council and those in our last meeting completed a survey. Those results show a variety of pieces including, but not limited to: Wellbeing, supporting French language learning at home, each meeting would like to have an update of the new school construction process (many comments show concern for completion for the target date), learning about mathematics and other timely and relevant topics.</p>

<p>Our school is the only school in our Board with an ECO School Designation. With parent support, we would like to share our “learnings with other schools/community groups.</p>	<p>In 2020-2021, our school ECO Team made presentations at the Parish/Principal Deanery Meeting.</p> <p>At the request of Fr. Dan Vere, our school was to present at a number of other engagements which would have involved parents driving to these locations.</p> <p>Due to COVID, this was not able to happen this year. It is our hope that we will be able to pick up with this opportunity next year.</p> <p>Mrs. DeGurse has met with the school team throughout this school year. It was their hope to connect virtually with other elementary schools.</p> <p>When the students return to in-school learning the in the Fall, the Eco Schools Team will resume with all of the school-based initiatives that allowed us to reach Gold Status in 2018.</p>
---	---

<p>What goals would you recommend to next year’s school council, to increase parental involvement and engagement?</p> <p>Provided that parents will once again be able to enter our schools, it will be our goal to resume the activities that occurred prior to COVID (Meet the Teacher Pizza Night, Christmas Dinner, School Community Dances, Movie Nights). All of these events are important to connecting our families to the school. It is also our intention to host face-to-face Parent Council Meetings with an option for parents to connect virtually if need be. Parent Council is actively looking into an online fundraiser in the Fall of 2021.</p> <p>Furthermore, when it is possible according to directives of the Ministry of Health, we would like to implement the following activities:</p> <ul style="list-style-type: none"> <li>• Host a game night and have different games set up through the school to show how playing board and card games are engaging for families along with how they assist in numeracy and literacy development.</li> <li>• Explore the opportunity for the students to celebrate Mass at another church in Sarnia (such as Our Lady of Mercy) so that they can see that Catholic Mass is similar at every church. The parents will be invited to take part in this Mass. It was also suggested that perhaps a field trip component could be added – that perhaps the school could go to Stones and Bones as well.</li> </ul>

List two or three goals undertaken by your school council in 2020-2021, to increase parental involvement and engagement.	Briefly describe the status of each goal.
<p>Promotion of the Virtual Sessions available for Parents through SCCDSB’s Mental Health Strategy Speaker Series.</p> <p>The limitations from this year with respect to parents not being able to come into the building has been a challenge. In order to try to keep this connection, at each meeting, we share some good things going on in the school through photos or video.</p>	<p>This goal is continuing to grow. At each meeting, at least one member has an opportunity to share some reflections regarding one of the Speaker Series that they have joined. This has started to spread the interest and uptake in these sessions.</p> <p>This goal is still in progress, however, we also see a way to leverage this goal moving forward for parents who cannot attend meetings in-person. This is a way to keep the connection with the physical environment and the activities within the school.</p>

<p><b>1-To <u>engage families</u> in developing strategies to promote a love of mathematics and fun and engaging ways to support their child at home.</b>            -family nights with a focus on mathematics for junior / intermediate students – with a possible connection to pathways            -Family Math for K to grade 1 (if being offered)</p> <p><b>2-To build a <u>sense of community</u> within our Catholic school between staff, students, parents, parish and the larger community.</b>            -Meet and Greet BBQ in September; parent community part of Terry Fox Run; Christmas Luncheon; parish, school council and agency support with kinderSTART; masses with the parish, etc.</p> <p><b>3-To promote active <u>parental involvement</u> in the school community through involvement in school advisory council, other committees and child's Catholic education.</b>            -Catholic school advisory council – promotion to join and participate in regular meetings (as a member or guest)            -fundraising committee            -food day committee            -Ontario Student Nutrition Program (OSNP) committee            -positive saints safe schools and well-being committee            -invitation for any parent to participate in special events            -use of technology to engage parents to be involved in their child's education and the school community</p>	<p>-unable to offer an event due to COVID-19 pandemic, restrictions on gatherings</p> <p>-unable to offer many of the traditional events that bring a sense of community due to COVID-19 pandemic, restrictions on gatherings            -by rethinking, we were able to do offer some family engagement opportunities and bring about some sense of community through: virtual Christmas carolling; virtual bedtime story time with author Connie Whitely; supporting poppies for the Legion and money donations for Operation Christmas Tree; participating in K of C Keep Christ in Christmas poster contest and Coats for Kids project; parish connections through a few virtual masses and Ask Father Dan and Deacon Chuck</p> <p>-this year, school council consisted of 20 members and meetings were held virtually            -fundraising and food day committee – unable to do this due to pandemic and restrictions on fundraising            -osnp committee – only a couple mothers supported the daily preparation of fresh fruit and vegetables, along with dairy or grains            -positive saints safe schools and well-being committee – was able to modify the approach and offer virtual meetings with intermediate student, parent, child and youth worker and staff involvement – theme of well-being / kindness of body, mind and spirit            -invitation for parent participation in special events – less opportunity this year due to restrictions            -use of technology to engage parents to be involved in their child's education and the school community – use of Edsby newsrifer and calendar, social media and newsletter, as well as parents engaging in Google Meets (synchronous learning) with their child</p>

What goals would you recommend to next year's school council, to increase parental involvement and engagement?
<p>-to continue to focus on above goals:  <b>1-To <u>engage families</u> in developing strategies to promote a love of mathematics and fun and engaging ways to support their child at home.</b>            -although this was put on hold, the goal is to implement something as soon as ministry of health and pandemic protocols allow for it to happen – may have to reconsider past format and offer virtually            -next year hope to offer for primary and junior / intermediate grades (apply for a PRO grant if available or use school funds); possibly connect with pathways and trades; possibly run Family Math for K to grade 1 – in order to have parents and children see themselves as mathematicians, understand that math is all around us in the environment and realize that math can be fun  <b>2-To build a <u>sense of community</u> within our Catholic school between staff, students, parents, parish and the larger community.</b>            -although many events that bring about a sense of community were put on hold this year, the goal is to re-introduce them as</p>

soon as the ministry of health and pandemic protocols allow for it to happen – may have to reconsider past format and think of offering differently – may include Meet and Greet BBQ in September; parent community part of Terry Fox Run, Christmas Luncheon, parish, school council and agency support with kinderSTART, parish masses, Christmas connection evening, etc.

**3-To promote active parental involvement in the school community through involvement in school advisory council, other committees and child's Catholic education.**

-school advisory council – promote more parents becoming involved and when able to join face to face again, continue to offer virtual option for parents that can't make it into the school

-fundraising and food day committee – start back up when possible

-osnp committee – promote parent involvement to volunteer to support the daily program

-positive saints safe schools and well-being committee – continue the theme of well-being / kindness of body, mind and spirit with the support of student, parent, child and youth worker and staff involvement

-invitation for parent participation in special events – when possible, continue to provide opportunities to bring community together; possibly showcase parent engagement in these committees and special events through Edsby newsriver and social media (twitter)

-use of technology to engage parents to be involved in their child's education and the school community – continue to use Edsby newsriver and calendar, social media and newsletter, as well as consider other ways to leverage technology to support parent involvement

-to add in the goal of promoting **4-Care for the Common Home**

-encouraging school community involvement in reducing our waste (garbage-less lunches, use of reusable water bottles and dixie cups, etc.) – brainstorm other ways to promote caring for the common home

What topics would you like the board to provide PD or information on at our meetings of our Board Advisory Committee, in order to enable your School Advisory Council to be more effective in increasing parental involvement and engagement?

-effects of the pandemic on the mental health and well-being of students and families, cultural shift to less structured environment in family life due to the pandemic, changes to education as a result of the pandemic

List two or three goals undertaken by your school council in 2020-2021, to increase parental involvement and engagement.	Briefly describe the status of each goal.
<p><b>Togetherness:</b> Encourage togetherness with all students including online students.</p> <p><b>Parent Connection:</b> Since Parents were not able to come into the school due to the Pandemic, parents wanted to be able to see what the students were up to via pictures and updates.</p>	<p>Each student registered to St. Joseph received a school spirit T-shirt.</p> <p>Several slide presentations were posted to Edsby and Facebook with the students and pictures of activities. There was also a video of a dance posted with all students participating. A year end video will be posted as well as the Grad video.</p>

What goals would you recommend to next year's school council, to increase parental involvement and engagement?

Continue working toward parents feeling included even if they cannot enter the building in person. Parent Council would like to see some outdoor events that allow us to gather while following rules for the Pandemic. Planning for an "ice cream social" with prepackaged ice cream. Parents also wanted to offer "freezie" treats during September and warmer months when we gather as a school family/community.

ST. CLAIR CATHOLIC DISTRICT SCHOOL BOARD

What goals would you recommend to next year's school council, to increase parental involvement and engagement?

- capitalize on the skills developed this year with regard to virtual meetings to make the School Advisory Council accessible to more families
- continue to use technology to build family engagement and parental involvement
- leverage the Edsby platform by connecting all families, providing PD and technical support, and expanding its use as a communication tool

What topics would you like the board to provide PD or information on at our meetings of our Board Advisory Committee, in order to enable your School Advisory Council to be more effective in increasing parental involvement and engagement?

**Edsby**

Many parents have expressed having challenges engaging with the Edsby platform. PD for our parents with regards to Edsby would be an important step towards ensuring that all parents are well connected to the school and receiving all relevant communications.

School: St. Patrick's

School Council Chair: Chantal Prasad and Sabrina Treftlin

List two or three goals undertaken by your school council in 2020-2021, to increase parental involvement and engagement.	Briefly describe the status of each goal.
<p><b>Principal's Report</b> – increase parental awareness of the many academic and school life events at St. Patrick's by celebrating these initiatives publically and inviting teacher representatives to speak share about these events at School council meetings</p>	<p>Pandemic protocols and school closures greatly impacted school life at St. Patrick's. That being said, numerous virtual activities took place throughout the school year and were archived and celebrated at the school council meetings.</p>
<p><b>Student Council Report</b> – Increased student voice at our meetings by inviting the Student Council and other student representatives to present at School Council Meetings</p>	<p>Student Council attended each meeting and provided a detailed report about student led events such as Indigenous leadership, Terry Fox, Remembrance Day, Irish Miracle, Christmas Assembly, St. Patrick's Day and Cyclone Aid to name a few. Reports were delivered by members of our student House of Representatives</p>
<p><b>On-Line Meetings</b> – meetings continued on-line to ensure adherence to COVID Protocols</p>	<p>Meetings were very successful with our largest attendance to date. Parents were able to easily follow along with agendas, guest speakers were easily able to attend and participate and students were able to access the meetings as well. Consideration will be given to continuing with a a compliment of on-line meetings post-pandemic.</p>

What goals would you recommend to next year's school council, to increase parental involvement and engagement?

I would recommend continuing with on-line meetings other than the first (election) and last (social) meetings of the year. The November, February and March meetings have historically had very low attendance – the on-line format allowed more people to attend and contribute their voice.

I would recommend we focus on celebrating events in the broader school community through the use of Edsby River and formal notifications to parents.

We also intend to share polished media productions with our School Council and broader school community through Edsby and formal notifications (emails).

We want to continue to provide learning opportunities for parents at all meetings, in order to promote stronger parental engagement which we know leads to stronger student engagement and achievement. Past presentations have included Irish Green Team, Student Council presentations, Student Trustee presentations, Catholic Graduate Expectations, Me to We, My Blueprint, Irish Miracle, Cyclone Aid, Pathways, Literacy Support, Numeracy Support, Demonstration of Learning, Empower Program for students with reading difficulties, Student Council Reports and presentations, an Art walk, SHSM presentation, Travel for Credit, Wellness Update, Orange Shirt Day and FNMI initiatives, Innovation Grants, Edsby, Thought Exchange, The Mayor's List, Special Olympics and many more.

What topics would you like the board to provide PD or information on at our meetings of our Board Advisory Committee, in order to enable your School Advisory Council to be more effective in increasing parental involvement and engagement?

Continue to offer BAC meetings in a virtual format whenever advantageous to do so to increase accessibility and engagement.

We are encouraged and interested in future conversations about Pathways for students leading them to post secondary work, apprenticeship, college or university.

Continue with Mental Health and Wellness information and best practices.

We are interested in continued conversation and supports for Indigenous students, and learning the indigenous Canadian history and perspective to promote strong acceptance

and inclusivity.

Enhanced opportunities for faith formation to be offered to BAC and School Council members in a virtual format outside of meeting times.

<p>Promotion of S.A.C Meetings:                      Parent participation throughout the year(s) varies regardless of the efforts to promote meetings. Working in the virtual model certainly allowed the possibility for increased access due to being able to log in from home.                      The school continues to promote meetings through the school website, direct parent email, and via school messenger. These message reminders are give one week prior and the night before council meetings. We have encouraged bring a friend meetings and even shared the meeting presentation topics in advance to capture their interest.</p> <p>Parent Interest Presentations:                      The principal seeks input from parents at the end of each meeting to identify what topics might be engaging in the future. Guest presenters are included in our meetings to outline different learning opportunities and supports available in the school. Student Council Reps are invited to present on our agendas to keep families informed of the monthly activities at the school level. Efforts have been made to invite parents; friends and alumni back to meetings and attend activities at the school.</p>	<p>Promotion of S.A.C.                      Despite the efforts to promote meetings through various mediums and the variety of guest presentations scheduled throughout the year, parent involvement remains small intimate group.                      New comers have joined and that is encouraging to see interest from families that haven't had a chance to attend the school in any capacity in 2019-2020 or 2020-2021.</p> <p>Parent Interest Presentations:                      With moving to the remote delivery model all guest presentations involved specialty assignment staff connected to UCC the St. Clair Catholic District School Board. Parents are interested in learning about the opportunities for their children. OUR VISION

**Catholic Education † Future Ready**

What goals would you recommend to next year's school council, to increase parental involvement and engagement?

We will continue to promote School Advisory Council in every opportunity we have. The virtual format that was conducted due to Covid 19 restrictions has a successful turn out so there is a possibility of repeating this format next year to see if parents will attend virtually.

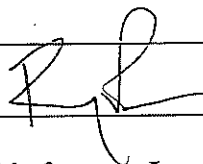

What topics would you like the board to provide PD or information on at our meetings of our Board Advisory Committee, in order to enable your School Advisory Council to be more effective in increasing parental involvement and engagement?

Parents have been extremely interested in Pathways and specialized programs such as SHSM that the Board and school offer to increase post secondary opportunity for their children. Learning about MyBlueprint always captures parent's attention, as it is an activity that parents can explore with their children. Learning about the future job market, options students have at high school to prepare and experiential learning to enrich the classroom curriculum are all of interest.

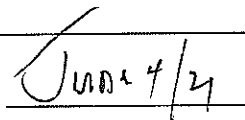

The presentation on destreamed math was very interesting and parents are interested what the implementation and success of the program. In addition, the conversations that will help determine if more destreaming course offering will be planned for future years.

Parents would like to hear more about the budget and how it relates to making improvements for UCC. In particular, spending to modernize and update our facility. This has been an ongoing discussion for years however no major changes or plans been put in place. Parents are interested in knowing how a school and board can fund the extras in a school without having to participate in fundraising activities.
