Mental Health Awareness Week And Catholic Education Week

UCC, along with many other institutions across Ontario, celebrated Mental Health Awareness Week May 3rd-7th. Each day began with mental health related prayers and videos. In addition to this, all students were invited to take part in the SCCDSB's Passport Adventure, led by Ms. Bowman. Students learned about the importance of their mental health, as well as how to deal with their mental health.

This week also coincided with Catholic Education Week. Morning exercises highlighted the theme of 'Nurturing Hope', and Mrs. Dudics' Grade 12 Religion Class attended a virtual mass and gathering with Cardinal Collins and other keynote Catholic Speakers.

Student Morale

Due to the switch to online, as well as the beautiful weather, student morale is very low. Most of the students I have spoken to feel as if they are just putting in time until summer. Many

teachers are working hard to try to raise student morale(as seen further on in this report), however, students continue to struggle in these unfortunate circumstances.

Leadership

In recognition of poor student morale, Mrs. Dunlop's Grade 12 Leadership Class, in cooperation with many staff members, have tried to step up and get students involved. They worked together

to create an inspirational, and highly entertaining video. In addition to the video, Mrs. Dunlop's Grade 12 Leadership Class worked with Mr. Cowan's Grade 11/12 Entrepreneurship Class to create UCC Together, a website designed to promote student engagement and sense of belonging. The website also features weekly challenges, such as a dunk contest, as well as pages to display artistic and musical talents.

Entrepreneurs

Mr. Cowan's Grade 11/12 Entrepreneurship Class has been very busy. In addition to creating UCC Together, this class has received many presentations from current and former entrepreneurial business owners, with more to come. Many students in this class have already applied for the \$3000 summer grant from the Ontario Government for entrepreneurship, with more planning to!

Yearbooks

Yearbooks will look a little different this year. Yearbooks will include QR codes to events and assemblies throughout the year, such as the academic assembly, the Grade 12 graduation, and the Christmas Assembly. The majority of copies have already been sold, which is unique because usually people wait until the last second before deciding they want one. Yearbooks will be delivered some time in the Fall.

Stay Strong Lancers! We Will Get Through This Together
