Policy Statement

The St. Clair Catholic District School Board is committed to providing our communities with a place to come together, volunteer, build skills, access community programs, become physically active and build strong and healthy communities.

The Board supports making school facilities and grounds available for community use where the use: does not violate the Board's mission to deliver quality Catholic education to our students in a faith-centred learning environment and can be provided at no cost to the Board.

Policy Goals

1. To ensure that the provision for community use does not displace students in need of classroom accommodation and does not interfere or conflict with the school's educational program space requirements.
2. To ensure the Board incurs no cost due to the operation of community use programs.
