

Student Accident Insurance

Date: 2010 09 01 / 2016 03 22 / 2022 03 29

Policy Statement

The St. Clair Catholic District School Board acknowledges that student participation in school activities requires appropriate supervision, instruction and training; however, some activities may involve inherent risk. Therefore, the Board strongly encourages all students, especially those who participate in sports programs, to be covered by appropriate insurance coverage.

Policy Goals

1. To inform students' families that they are strongly encouraged to purchase coverage by an accident insurance plan.
2. To inform students' families that the Board does not provide any insurance for expenses on behalf of students.
3. To inform students' families that financial hardship may result from accidents if accident insurance is not purchased.
