

REVISED Notice of Project

This notification is provided to inform General Contractors of a project proposed by the St. Clair Catholic District School Board and shall be considered as a supplement to the Instructions to Bidders which are included with the Bid Package for the project.

Project Title: General Renovations and Addition for Mechanical Equipment

Project Location: Our Lady of Fatima Catholic School
545 Baldoon Rd, Chatham Ontario

Project Owner: St. Clair Catholic District School Board,
420 Creek Street, Wallaceburg, ON N8A 4C4

Project Consultant: Wilson Diaz Architects Incorporated,
280 Queens Ave, London, ON N6B 1X3

Owner Project No: 619-CP1902

Consultant Project No: WDAI 1819

Scope of Work

As described in the Drawings and Specifications, the work includes demolition of exterior masonry face brick, interior load bearing & non-load bearing partitions, portions of ceilings, portions of door and window assemblies, concrete floors for underfloor services, finishes and site works demolition. New work includes new exterior wall facing assemblies, door systems, and parapet renovations. New work also includes the construction of a new mechanical room area and reworking of interior spaces to be included as part of the introduction of major mechanical equipment upgrades. New custodial & storage rooms and a new entry/exit corridor improvements are to be completed. Major mechanical work will include the phased installation of a building sprinkler system, new heat pumps, new ventilation systems and associated mechanical services. Lay in Acoustic (LAT) and some Gypsum Wall Board (GWB) ceilings will be replaced with new ceiling systems upon completion of above ceiling mechanical and electrical work has been completed in new areas. In certain areas where ongoing above ceiling work is required, ceiling systems will be completed with new suspended track and finished with previously removed and stored existing ceiling tile as noted on drawings. Site work to provide new underground service connection for storm water drainage and facilitate underground electrical service to new exterior lighting. New exterior pole mounted lighting and all associated electrical services is Separate Price work.
