Executive Summary

The purpose of the *Ontarians with Disabilities Act, 2001* (ODA) is to improve opportunities for people with disabilities and to provide for their involvement in the identification, removal and prevention of barriers and to promote their full participation in the life of the province. The ODA requires each school board to prepare an annual accessibility plan; to consult with people with disabilities in the preparation of this plan and to make the plan public. As a result, the St. Clair Catholic District School Board has been developing annual accessibility plans.

The *Accessibility for Ontarians with Disabilities Act, 2005* (the "AODA") is a Provincial Act with the purpose of developing, implementing and enforcing accessibility standards to make the province accessible for all people with disabilities by 2025. Since 2005, two regulations outlining accessibility standards have been made under the AODA. The first regulation was the Accessibility Standards for Customer Service (O. Reg. 429/07). The second was the Integrated Accessibility Standards Regulation (O. Reg.191/11) (IASR). One of the requirements of the IASR is to develop, implement and maintain a multi-year accessibility plan to outline strategies to prevent and remove barriers and meet the requirements of the IASR.

Aim

This Accessibility Plan is developed in accordance with the Integration Accessibility Standards Regulation under the *Accessibility for Ontarians with Disabilities Act, 2005*. It incorporates the intentions of the Board to meet its obligations under the *Ontarians with Disabilities Act, 2001*. The Plan describes the measures that the Board has taken in the past as well as measures that will be taken during the next year (2023-2024) to identify, remove and prevent barriers to people with disabilities who work, learn and participate in the School Board community and environment including students, staff, parents and guardians, volunteers and visitors to the Board and its schools.

Objectives

This plan:

1. Describes the process by which the St. Clair Catholic District School Board will identify, remove and prevent barriers for people with disabilities.
2. Reviews recent efforts at the St. Clair Catholic District School Board to remove and prevent barriers.
3. Describes the measures the St. Clair Catholic District School Board will take to identify, remove and prevent barriers;
4. Makes a commitment to provide an annual status report on the Board's implementation of the accessibility plan;
5. Makes a commitment to review and update the accessibility plan at least once every 5 years;
6. Describes how the St. Clair Catholic District School Board will make this accessibility plan available to the public.

Commitment to Accessibility Planning

The Director of Education has authorized the Accessibility Working Group to prepare an accessibility plan that will enable the St. Clair Catholic District School Board to meet these commitments. The St. Clair Catholic District School Board is committed to:

- Establishing an Accessibility Working Group;
- Consulting with people with disabilities in the development and review of its annual accessibility plans;
- Consulting with community partners;
- Ensuring school board policies and procedures are consistent with the principles of accessibility; and,
- Improving access to facilities, policies, programs, practices and services for students, staff, parents/guardians, volunteers and members of the community.

Description of the St. Clair Catholic District School Board

The St. Clair Catholic District School Board was created January 1, 1998 as the result of amalgamation of the former Kent and Lambton County Roman Catholic Separate School Boards. We provide educational services to approximately 8,713 students in 25 elementary and secondary schools.

Types of Barriers

A “barrier” is anything that prevents a person with a disability from full participation in society because of that disability. Examples of barriers include:

- attitudinal barriers, for example assuming people with a disability can’t perform a certain task when in fact they can;
- architectural and physical barriers, for example no elevators in a building of more than one floor or a step at the entrance to a building;
- technological barriers, such as websites not formatted for screen readers or font adjusters;
- information or communication barriers, for example a publication that is not available in large print; and
- policies or practices which create barriers, for instance not offering different ways to complete a test.

Strategy for Prevention and Removal of Barriers

Through the annual accessibility plan status report process implemented under the *Ontarians with Disabilities Act, 2001*, the St. Clair Catholic District School Board’s programming, policies and practices have been assessed to ensure continuous improvement in accessibility. This process will continue through the establishment of a multi-year accessibility plan which places particular emphasis on the provisions of the regulations made under the AODA with regard to customer service, information and communications, employment and school transportation.

Barriers That Were Addressed in 2022-2023
Attitudinal

Objective: Continue to promote inclusionary practices for all students, staff and community members

Summary of Strategies to Remove Barrier:

- A number of professional development opportunities and training have been provided for all staff throughout the year. These include: Social Emotional Learning, Trauma Informed Schools; Student Wellbeing; Mentally Healthy Schools; Suicide Prevention Protocols; Bullying (Kindness); Resiliency; Physical and Emotional Health Literacy; Parent Engagement; Self Regulation; Wellbeing Pathway to Care; Mental Health Learning Series; Behaviour Management Systems Training; Applied Behaviour Analysis; Universal Supports; Structured Learning and Assistive Technology training. **See Appendix 2: Inclusionary Workshops and Professional Development for Board Employees 2022-2023**
- The St. Clair Catholic District School Board continues to work in partnership with local associations, community partners and our coterminous Board to provide professional development opportunities for students, parents and staff. The Lambton Kent District School Board and St. Clair Catholic District School Board are working with both mental health lead agencies and local health agencies to develop protocols that align for a student to go through a seamless system of services.
- Both school boards are also working together with community partners on developing strategies to address the most vulnerable students in their communities (eg. ACCESS CANADA in Sarnia-Lambton, mental health literacy, trauma informed schools).
- A broad representation of members has been maintained on the Accessibility Committee. Members include principals, staff from K - 12 Learning Services Team, Corporate Services, Planning and Facility Services, Information Services and Human Resource Services.

Architectural and Physical Barriers That Were Addressed in 2022-2023

Objective: The Facility Services Department is committed to greater accessibility in, out of and around the buildings for which we are responsible

Summary of Strategies to Remove Barrier:

- Facility Services continues to monitor and address identified barriers as budget and timelines permit.
See Appendix 3: St Clair Catholic District School Board Accessibility Projects

Architectural and Physical Barriers Cont'd. That Will be Addressed in 2023-2024

Objective: New Accessibility Amendments to Ontario's Building Code 2012, requires newly constructed or substantially renovated spaces to meet Ontario Regulation 368/13 (effective date is January 1, 2015) and AODA Design of Public Spaces Standards. Existing buildings, where no work is planned, are not affected by these new requirements but the Board will continue to address these barriers as identified through various stakeholder groups.

<i>Strategy</i>	<i>Timeline</i>	<i>Responsibility</i>
<ul style="list-style-type: none"> • Facility Services will continue to plan and provide accessible facilities ensuring all renovations and additions meet building code requirements (Ontario Regulation 368/13 & AODA Design of Public Spaces Standards, 2012) 	Ongoing throughout the year	Facility Services

Technological Barriers That Were Addressed in 2022-2023

Objective: Support exceptional learners through the use of adaptive equipment and programs

Summary of Strategies to Remove Barrier:

- Both small and large group training sessions on assistive technology have been provided upon request to staff and students on an individual school basis by the Itinerant Assistive Technology Support Teacher. The focus has been on a range of software programs including:
 - *Read and Write for Google Chrome* (both voice to text and text to speech capabilities)
 - *Grammarly for Chrome*
 - *Google Suite*
 - *Orbit Note*
- The Program Resource Teacher as well as the Itinerant Assistive Technology Support Teacher continue to provide additional training to Classroom Teachers and students, specifically with Read and Write for Google Chrome.
- Students with Special Equipment Amount (SEA) funded assistive technology continue to be provided with several hours of individualized training by the Itinerant Assistive Technology Support Teacher as well as the SEA Technology Trainer. School staff were invited to participate in the training with the students, which has been very successful with virtual training sessions. *Read and Write for Google Chrome* has been the focus.
- In order to provide a continuity of support for the exceptional learners in the school and home environments, training opportunities for parents on various programs were available upon request by the individual school principal. *Read & Write for Google Chrome* continues to be available system-wide, as well as for home use. This program is accessed through the student's SCCDSB account. Parents of children with SEA funded assistive technology could request to attend their child's training sessions.
- A process has been developed to ensure that SEA equipment is upgraded as needed. Equipment is upgraded if there are changes in student need or if the equipment is inoperative.
- Designated technical support continues to be provided for SEA equipment.
- Reviewed Board to Board and elementary to secondary transfer process for students with SEA equipment to ensure prompt response to the needs of the incoming or outgoing student.
- Elementary and Secondary Teachers were provided with various professional development opportunities that address accessibility issues. **See Appendix 2: Inclusionary Workshops and Professional Development for Board Employees 2022-2023**
- Closed captioning has been used during virtual meetings, presentations and live events (where that has not been possible, an ASL interpreter provides this accommodation).

Information and Communication Barriers That Were Addressed in 2022-2023

Objective: Augment the Board's wireless network in schools to ensure reliable and consistent access for increased number of devices.

Summary of Strategies to Remove Barrier:

- The Information Services Team deployed additional WIFI access points as requested to facilitate increased usage of the Board's WIFI networks. This network also supports the use of personal electronic devices via our BYOD program. SD WAN project to ensure 1MB/S per student at all locations.

Objective: Ensure computer systems are easily accessible for staff and students.

Summary of Strategies to Remove Barrier:

- Implemented changes to software images aimed at improving boot-up times
- Obtained feedback from end-users via thought exchange data collection approach to assess effectiveness of current systems in order to inform and direct planning priorities for future implementations. Information and feedback sessions with users in planning stages.
- Prioritized deployment of new hardware based on feedback from school based staff
- Worked collaboratively with the Special Education team to leverage software ensuring accessibility for learners

Objective: Enable all students to access and use computers in their school.

Summary of Strategies to Remove Barrier:

- Continued deployment of new technologies
- Increased network capacity (bandwidth) to meet network users' increased needs. Regular monitoring to identify and address any bandwidth issues.
- 5 year refresh plan in progress to sustain Board purchased technology levels in schools.

***Policy Barriers
That Were Addressed in 2022-2023***

Objective: Ensure that policies and procedures of the St. Clair Catholic District School Board will be reviewed as necessary.

Summary of Strategies to Remove Barrier:

- All policies are reviewed on a cyclical basis and will include consideration of Equity and Inclusion and Accessibility legislation.
- Participation on elearning modules related to Equity and Inclusion held by the Ministry of Education.
- Integrated Accessibility Policy and Procedures; Information and Communications were reviewed this year.
- Update Equity Action Plan and share plan with all stakeholders.

Barriers to be Addressed Under the Multi-Year Accessibility Plan

The Integrated Accessibility Standards Regulation 191/11 pursuant to the Accessibility for Ontarians with Disabilities Act, 2005 identified specific requirements to achieve accessibility in the areas of:

- Information and Communications,
- Employment,
- Transportation.

These requirements build on the previously implemented Accessibility Standards for Customer Service which came into force in 2007.

St. Clair Catholic District School Board demonstrates through this Accessibility Plan its intention to address barriers to accessibility related to the IASR.

As a designated public sector employer The Board is required to complete bi-annual compliance reports to AODA Compliance Ontario. This report was submitted as required June 30th, 2021. The AODA completed a compliance audit and confirmed the Board is in compliance with the act on October 19th 2021.

Additionally, the Board has complied with all of the commitments outlined in the previous Multi-Year Accessibility Plan. The list described below highlights the accessibility action items for 2013-2022 that were completed.

Review and Monitoring Process

The Accessibility Working Group will meet as required during the year to review progress and evaluate the effectiveness of implementation of barrier-removal and prevention strategies and to plan for increased accessibility throughout the Board.

The Accessibility Working Group will ensure that in respect of the Accessibility Plan the following steps take place:

- (a) An annual status report on the progress of the measures taken to implement the plan is prepared.
- (b) At least once every 5 years the plan is reviewed and updated in consultation with persons with disabilities.

Communication of the Plan

The St. Clair Catholic District School Board's accessibility plan will be posted on the Board website at www.st-clair.net and hard copies will be available upon request. Other formats will be provided upon request.

Summary of Community Partner Feedback

Respondent Summary:

A Thought Exchange was generated and shared with various community partners and stakeholders (including SEAC, fourteen community agencies and Parent Advisory Committee representatives). A copy of the 2022-2023 Accessibility Plan was included for their review, as well as the question: **How can SCCDSB strengthen our ability to improve accessibility in the areas of facilities, technology, information, policies and/or attitude?**

There were 35 participants in the Thought Exchange and ten thoughts were shared, which then received 55 ratings. The feedback emphasized the need for accessible physical spaces and digital platforms. There was also concern that playgrounds were not accessible to all students, particularly those with physical disabilities. Participants requested more diversity training be delivered in classroom settings and that teachers have access to ASL instruction, particularly when they have a student who is deaf. There was interest in having student and parent representation on the accessibility committee to increase understanding of the barriers that arise for children/ youth with disabilities.
