% of baptisms that registered for JK		125%	100%	129%	157%	92%	60%	67%	64%	44%	65%	65%	65%

The most recent 5-year average registration for JK in Bothwell is about 65% of the baptisms in the corresponding year of birth at the area parish.

This pattern would suggest a slight decline in enrolment for the years 2005 - 2007 as noted in the above shaded area.

The original information presented in Appendix 3 - Record of Baptisms for St. Ignatius Bothwell incorrectly included ALL baptisms for 1991, 1993, 1997, 1998, and 1999. Totals have been corrected to include only infant baptisms consistent with the more recent numbers and with the totals reported for St. Paul. This increases the percentage of children that were baptized and attending JK at St. Ignatius School from 52% to 65% and still suggests a decline in enrolment.
